

As a listener of K-Love radio, I was saddened to learn that the new LPFM stations could take priority over the existing FM translator from which I receive the K-Love signal. K-Love provides unique programming not offered by any other station in San Antonio. Several of my friends listen to K-Love as well, which is why the impact on the San Antonio area could be quite large if we were no longer able to receive the signal. K-Love provides quality music with a positive message for the community. It is important to have stations like K-Love that the entire family can listen to without concern about the lyrical content prevalent in much of today's music. I can turn on K-Love in the car and not be worried about what my children are being exposed to. The loss of K-Love in our community would be a great detriment to San Antonio.

Thank you for your time and consideration in this matter.

Sincerely,
Tamara Paul
